## TURNS AGAINST BRYAN

Richard Metcalfe, Former Commone Editor, Says Premier Is "Through."

Sioux City, Iowa, June 19.—Democrats of this section were greatly surprised when Richard L. Metcalfe, former right hand man of William J. Bryan, and formerly editor of the Commoner, in a signed editorial in his own paper today read Bryan out of the Democratic party and predicted Senator Hitchcock will control the federal patronage in Nebraska.

Through influence of Bryan, Metcalfe was given one of the best jobs at the disposal of the administration at a salary of \$14,500. When congress abolished the position Metcalfe returned and ran for governor of Ne-

### FREAKS OF BIG STORM IN WHICH DEATH LOSES

Many stories of narrow escapes came in as telegraphic communication became better in the area affected. At Goltry, Ok., J. R. Johnson and Volney Kraft, farmers, led their families into caves at the approach of a small tornado and saved their lives, the homes of both families being demolished. The stone house of Melvin Pipkin was blown over while Pipkin and his wife were within. Both eswas blown over while Pipkin and his wife were within. Both escaped with bruises. Mrs. Clyde Carwood was carried from her home into a wheat field a mile away and escaped with slight injuries. B. E. Bowen, a farmer, suffered a fractured skull when a dwelling was blown in upon him. He will live. Sixty-five cars were blown from

the Frisco tracks in the yards at Fort Scott, Kan. One was a work train in which track laborers were living. Three were injured. The home of J. T. Wood was blown over intact, carrying the occupants with it. No one was hurt. Several farm houses and many small buildings north of Fort Scott were blown was.
